Letter of Recommendation

To whom it may concern,

the last six months I took individual English lessons with Lina Zhang. I improved my English skills very much during this time.

I started with no English skills at all. Since she has perfect German skills she was the perfect teacher for me, because she was able to teach me the basics in my native language. During the whole six months she was very flexible regarding the combination of my level and the topics of the lessons.

I had a very good and positive time with her. That's why I can recommend her any time to anybody who is looking for a professional English teacher, especially for those with a German background.

Best regards,

A handwritten signature in cursive script, appearing to read 'Jana Qupi', written in dark ink.
